

## Appendix II. General Information on the Unit Responsible for the Computer Science Program

If you are having more than one program evaluated, particularly if the programs are on separate campuses, the answers to these questions may vary from one program to another. If this is the case, please use separate copies of this section for each program, and clearly delineate which program is being described.

### A. Type of unit

1. Name of computer science program unit: Computer Science Department

URL <http://www.csupomona.edu/~cs>

2. If the computer science administrative program unit is not a department reporting to an administrative officer (e.g., Dean of College of Arts and Sciences) who in turn reports to president, provost, or equivalent executive officer, describe the unit.

### B. Administrative Head of Computer Science Program Unit

Dr. Mandayam Srinivas

(Name)

Professor and Chair

(Title)

C. Organization Chart. Attach an organization chart showing how the unit fits into the administrative structure of the institution.

Organization chart appears on the next page.

D. Research Organizations. Describe any research organizations, institutes or other related facilities that are part of the unit responsible for the computer science program or that closely affect its operation.

There are no research organizations or similar entities that are part of, or connected to, the Computer Science Department.

The University has an Office of Research and Sponsored Programs. The Director of this office and his staff provide assistance to faculty in the identification of funding programs and the preparation of proposals to the funding organizations. The office also administers grants and contracts.

The Faculty Center for Professional Development and its Director and staff also support faculty in the pursuit of funding opportunities or other research and scholarly activities.

Both of these offices coordinate and support campus initiatives to encourage and support research activities, including a regular Research and Scholarly Activity Grant program and a Seed Grant program. Some of our faculty have been recipients of grants under these programs.

E. Computer-Related Undergraduate Degree Programs. List all undergraduate computer-related degree programs offered by the institution, beginning with the program(s) being evaluated.

Program Title	Years Required	Degree Awarded	Administrative Unit	If accredited, by whom
Computer Science	4	B.S	Computer Science Department	ABET/CAC
Computer Information Systems	4	B.S	Computer Information Systems Department	AACSB
Electrical and Computer Engineering	4	B.S	Electrical and Computer Engineering Department	ABET

Are these programs adequately differentiated in all university information? Explain how.

Each of these programs is in a separate department, and each of the three departments is in a different college.
