Week 10

Tuesday: Executive Board Meeting

Thursday : FRL 300 and FRL 301
Tutoring Session

Term of the Week

Weekend Effect:

A theory of stock market growth, claiming that traders optimism normally fades between Friday and Monday, thus stock prices tend to be negative Friday through Monday.

The purpose of the FRL 300 and FRL 301 tutoring session is to provide a forum by which students will be able to interact with other students and the instructor. At times scheduled class times may not present students with a comfortable arena by which to ask certain questions. Thus a less pressured environment may encourage students to ask relevant questions and gain a better insight of the material.

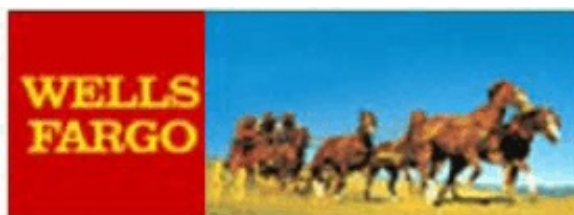

Upcoming Events:

Nov 22 - Dec 9: Finance Society is conducting a food drive, be generous and look out for our boxes

Week of Nov 28: Decision on Glass Case Competition

Dec 1 : Tutoring session for FRL 300
