Career Preview

The Finance Society will be visiting the Ameriprise Financial office in Corona to participate in an information session. The purpose of the visit is to expose our members to a possible career in financial planning.

Term of the Week

Love Money

Seed money or capital given by family or friends to an entrepreneur to start a business. In this type of situation, the decision to lend money and the terms of the agreement are usually based on qualitative factors and the relationship between the two parties, rather than on a formulaic risk analysis.

Financial Planning

A career opportunity worth considering

Financial Planning is the process of determining whether and how an individual can meet his or her life goals through proper management of financial resources. Financial planning professionals have excellent earning potential and make a real contribution to their client's economic well being. Major employers of these professionals are Paine Weber, Merrill Lynch & Co, and CIGNA Corporation.
