Fall Quarter 2006

Message From the Editor

Hello everyone and welcome to the Cal Poly Pomona IEEE Student Branch/Section Newsletter. I hope you will find this newsletter informative and enjoyable. I have been a member of IEEE since 2004, and have been the Newsletter Editor since Fall 2005. Every quarter a newsletter will be published and posted on the website to inform the students about past and upcoming events. I would like to thank you for taking the time to read through the newsletter. If there are any questions or corrections, you can contact IEEE via e-mail at cpieee@gmail.com.

1st General Meeting

October 5, 2006

The first IEEE general meeting was held in Building 9, room 247 and was quite an event. The room was overflowing with interested students wanting to gain more information about IEEE, and several boxes of free pizza and cans soda were served. The officers introduced themselves, various activities were discussed, and Jeremy Smith and Scott Borg, members the Formula Racing Team, were there to discuss valuable opportunities for electrical engineers. Be sure to attend our future meetings to get up to date information about upcoming events.

IEEE BBQ

October 3, 2006

The IEEE BBQ was held at the Quad during university hour where dozens of hungry students and even professors lined up to taste the BBQ. For only \$5, each person could get chips, salsa, rice, beans, 2 carne asada tacos, and a drink. It was an incredible way to satisfy one's hunger. The meat was cooked by Jason Lin and Voytek Truty, both IEEE Officers; and the rest of the food was prepared by the other Officers.

"The food today was really good. It definitely hit the spot," said Bernardo Rios, a senior majoring in Electrical Engineering.

Manuel Carrasco, the IEEE Chair said, "I was glad to see new members at our first BBQ."

Another BBQ will be held soon. Don't miss out on the great food!

TV Taping

October 6, 2006

Many IEEE Officers and members attended the TV taping of "Talk Show with Spike Feresten" (<http://www.fox.com/talkshow/>) in Hollywood and had a great time. Spike Feresten is an Emmy-nominated writer who has done work for TV shows such as *The Simpsons*, *Seinfeld*, and *The Late Show with David Letterman*. There were 2 episodes filmed, #111 and #112, and these will be aired on December 9 and 16 at midnight on FOX. During the episodes, Spike interviewed Alex Borstein (former *MAD TV* comedian, voice of Lois on *Family Guy*) and Jeff Garlin (HBO's *Curb Your Enthusiasm*). Be sure to watch the show, you may see some of the IEEE attendees on TV!

Engineering Club Welcome Fair

October 12, 2006

The Engineering Club Welcome Fair was held on both floors of Building 17 and was packed with students from all over campus interested in the different engineering clubs and other helpful services offered on campus. Approximately 500 students, faculty, and staff guests participated in this event. This was a great way for IEEE officers to personally introduce and answer any questions the students might have. Students conversed with various club members, collected flyers, brochures, and business cards while snacking on free sandwiches and a variety of drinks.

This event was a great success for IEEE. The goal of informing students about the benefits of joining IEEE was accomplished.
