**Objective** Internship or entry-level position in the electrical and computer engineering field.

**Education**

Bachelor of Science in Electrical and Computer Engineering Technology.  
California State Polytechnic University, Pomona, December 2000.  
Senior Design Project: Robot called "Micro-mouse" using Motorola microprocessor.  
Major GPA 3.31

Related Courses

C and C ++ program  
Assembly Language.  
IBM and Intel Microprocessors.  
Digital Logic I & II.  
Network Analysis I.  
Feedback System.  
Control System.  
Electrical Circuits and Devices I, II, III  
Linear Integrated Circuits, Applications.  
Communication System.  
Auto CAD.  
PAD.

**Work Experience**

Educational

California State Polytechnic University, Pomona.  
Tutor, Disabled Students Services Center, September 1998 to September 1999.  
Helping students with Electrical and Computer Engineering Technology courses.

Industrial

Beckman Industrial Technology Corporation.  
QA Technician, September 1999 to present.  
Perform environmental tests for electrical products.  
Research and find out causes of the defected products.  
Morabito Baking Co., Norristown, PA.  
Mechanics Assistant, March 1995 to July 1997.  
Assisted mechanics in maintaining and fixing machines as problems occurred.

**Honors and Awards**

Dean's Honors List Winter 1999.  
Member of Tau Alpha Pi, Engineering Technology Honor Society, 2000-
