

Satisfy the GWT Requirement With a Course!

- **Pass the Writing Proficiency course (CPU 401) and satisfy the GWT requirement!**
- **Collaborate with tutors and fellow students!**
- **Get expert guidance and feedback from an experienced English instructor!**

The UWC and Academic Affairs are offering CPU 401, a hybrid course that allows students to meet the GWT requirement by completing the course successfully. CPU 401 was developed for students who have attempted the GWT at least twice but not yet passed. In the course, students will focus on writing, revising, and proofreading strategies and produce five essays, from which they will select the best three to submit in a portfolio to be assessed by GWT readers. If the portfolio passes, then the student's transcript indicates that the GWT requirement has been met.

Interested students should call the UWC at 909-869-5343. Students wishing to enroll should fill out an application and return it in person to the UWC (Library, 2919) or by fax (909-869-5350).
